Courses of Study.

The following Courses of Study are now established; others will be added as required.

THEOLOGICAL COURSE.

The pressing need of educated ministers throughout the South led to the establishment of this course.

Three lines of study are pursued, the aim being:

First.—To become familiar with the leading Facts of the Bible; Facts of Geography, History, Chronology, Biography, with special reference to the Lives of the Apostles and of Christ, Ancient Covenants, Typical Jewish Institutions, Messianic Prophecies, Harmony of the Gospels, Miracles and Parables, Events of the Passion Week, Planting of the early Christian Church among the Gentiles, Biblical View of the Christian Doctrines, with Proof-Texts and Exegesis, Biblical Archæology.

Second.—To understand the system of Christian Theology; the Existence and Perfection of God, Inspiration of the Bible, Trinity, Divine Decrees, Providence, Will, Nature of Holiness and Sin, Apostasy, Depravity, Atonement, Regeneration, Justification by Faith, Perseverance of the Saints, Eschatology, and Positive Institutions.

Third.—To become acquainted with, and established in, the best Methods of Christian Work; Preaching, Pastoral and Mission Work, Prayer Meetings, Reform Societies, Agencies of Beneficence, Planting of Churches, Bible Study.

Pupils pursuing the Normal Course are allowed to take one study in Theology, during the last two years of their Normal and Collegiate studies, thus enabling them to complete the Theological Course one year sooner than they otherwise would.

Most of the students in the course perform mission work in the surrounding country, for which they receive a small compensation, thus enabling them to continue their studies without becoming involved in debt.

Tuition and the use of the library are free.

Persons pursuing this course may receive instruction in the other courses at one-half the usual rates.

Those having the necessary education, and who devote their entire time to it, can finish this course in three years; others remain longer.

Candidates for admission to this department must furnish satisfactory evidence of moral character, and of such scholarship as will enable them successfully to pursue the prescribed studies.

COLLEGE PREPARATORY COURSE.

For admission, students must be thoroughly prepared in all the subjects named in the first year of the Normal Course.

None but those who expect to complete the course are encouraged to begin it.

Punctuality at opening of the terms, regularity, constant attendance upon recitations, and thoroughness of scholarship are the conditions of continuance.

FIRST YEAR.

MATHEMATICS.—Algebra.—*Olney.*

LATIN.—Latin Lessons.—*Harkness.*

HISTORY.—Scripture History (Old and New Testament).—*Smith.*

SECOND YEAR.

FOURTH YEAR.

LATIN.—Virgil.—*Chase and Stuart.*

GREEK.—Anabasis and Greek Prose.—*Boise.*

HISTORY.—General History.—*Anderson.*

NORMAL DEPARTMENT.

The completion of this course is intended to prepare students to teach in the most advanced schools in the South.

To meet the growing demand for better teachers, special attention is given to Normal work proper. A TEACHERS' INSTITUTE is held at the close of the Spring term, affording those who engage in teaching a rare opportunity to become familiar with the best methods of instruction.

Students expecting to enter upon this course must bring certificates of character, and, if from other schools, of honorable dismissal. A satisfactory examination is required in all the subjects in the third year of the Grammar Course.

Graduates receive Diplomas.

FIRST YEAR.

MATHEMATICS.—Arithmetic.—*Fish*.

LANGUAGE.—Grammar, Analysis and Composition.—*Reed and Kellogg*.

SCIENCES.—Physiology.—*Huchinson*.

Fifth Reader, Writing, and Spelling.

PRIMARY DEPARTMENT.

Hitherto this department has been a necessity; and the time has not yet come when it can be dispensed with. It will be continued as long as there is urgent need for it. The studies pursued are elementary and may soon be completed. They include the beginning of Reading, Writing, Spelling, Elementary Arithmetic, Geography, and Language.

INDUSTRIAL DEPARTMENTS.

These departments were organized for a two-fold purpose.

FIRST: To give practical instruction in the best methods of doing work.

SECOND: To enable students of limited means to pay a part of their expenses in labor, thus developing in them a spirit of self-reliance. While the College will not *make* work merely for the purpose of giving employment to students, it will furnish all the labor it consistently can.

Early application will be necessary to secure aid. Those who apply late must be satisfied with what they can get. *In no case should any one come, hoping to receive such aid, unless such person has applied for it and received a favorable answer.* Attention to this statement may save time, trouble, and disappointment. Applicants should state the degree of advancement in their studies, their necessities, and *the amount which they can promptly pay.* In no case will industrial students be allowed to run behind in their accounts.

Faithfulness, promptness, and efficiency in the performance of all labor will be exacted from each one.

It is earnestly hoped that all will come prepared to pay as much as possible, in order that they may have the more time to devote to study and self-improvement.

AGRICULTURAL DEPARTMENT.

WINSTED FARM contains one hundred and sixty acres, lying about one mile from the College Buildings. There are also about forty acres adjacent to the buildings, used partly for gardening purposes.

The proceeds of the farm and garden are sold or used in the Boarding Department and the Agricultural Department credited accordingly. A few young men secure regular "jobs" for which they are allowed a certain sum monthly. Others work by the hour and *are paid according to the value of the work done.* Young men without money, but desirous of obtaining an education, can usually find employment on the farm until they have earned enough to enable them to go to school a part, or a whole, of the year. The long summer vacation affords the best time to do this.

As yet no course of study in Agriculture has been established, but we trust the time is not far distant when text-books on this important and practical subject will be introduced.

GIRLS' INDUSTRIAL SCHOOL.

The young ladies are here given instruction in house-keeping; in kitchen, dining-room, and laundry work; and are also taught plain sewing and other needle work. Some who desire to pay part of their board bill in work, can make such arrangements by early application. Such will be credited according to the amount of work done.

General Information.

MEMBERSHIP.

FOR MEMBERSHIP in the College, applicants must have good moral character, and upon their arrival must present satisfactory testimonials of such character.

Students from other schools must present certificates of honorable dismissal.

Application should be made at least one month before the beginning of the school year. All should be present at the opening of the School, that they may be immediately classified, and thus lose no time. Students in regular classes lose their membership when absent one month; while *absence without leave* may forfeit the pupil's right to membership in the Institution.

Those who have not a fixed purpose to improve their minds, and an earnest desire to fit themselves for usefulness, should not seek admission, as the presence of such is not tolerated.

Students are not allowed to come or go on the Sabbath. They must, therefore, plan to avoid all travel on that day.

TEACHING.

By far the best means of support, as well as of doing good, is found in *teaching.* The demand for teachers properly qualified for this work is usually in excess of the supply; and nearly all of those who are sufficiently advanced in scholarship can aid themselves by teaching.

County Superintendents of schools, and others desirous of securing teachers from this Institution, will favor their own interests by so arranging the sessions of the Public Schools as to have them occur during its summer vacation.

Members of this Institution who may be considered by their Instructors qualified for teaching, will be furnished with certificates stating their qualifications and standing. As a means of protection

from imposition, applicants for schools, claiming to be from Talladega College, should be required to present such certificates.

MUSIC.

Excellent advantages are offered for study and drill in both Instrumental and Vocal Music. Lessons are given upon the piano and organ. The *College Choir* and *Glee Class*, besides private classes, present unusual advantages for vocal culture.

LITERARY SOCIETIES.

The students sustain two literary organizations; the Adelphic for young men, and the Vesperian for young ladies.

LIBRARY, APPARATUS, AND READING-ROOM.

The library contains several thousand volumes, accessible to all without cost.

The College is in possession of a small philosophical apparatus and laboratory.

Through the liberality of Northern friends, a fine Reading-room has been fitted up in Stone Hall and is fairly supplied with current literature.

EXPENSES.

Board, including furnished room, fuel and lights, and washing,	
per month,	\$10 00
Tuition in the Preparatory and Normal Departments, per mo.,	1 25
Tuition in the Intermediate and Primary " " "	1 00
Instruction in Instrumental Music, with use of Instrument, one	
hour daily, per month,	2 00
Same for term, payable at once in advance,	5 00
"Per month" means four weeks or twenty-eight days, and not the calendar month.	

All needed text-books can be bought *at cost* at the College, and students should come prepared to get them. They are sold for cash only.

All payments are to be made in advance on the first day of each month. Students who fall behind in their accounts a half month are *liable to suspension from recitations* until they pay, or make other satisfactory arrangements.

All old accounts must be settled before entering school for another year.

Upon arrival all students are expected to deposit their money with

the Treasurer, and money thus deposited for board, tuition, and books can not be drawn out and used for other purposes.

All boarders are required to work for the Institution at least one hour per day. This requirement makes the above low charges possible.

Remittances in payment of bills should be made by money-orders, drafts, in registered letters, or by express. Make money-orders and drafts payable to C. B. RICE, Treasurer, and address all moneys to him. Receipts will be promptly returned.

REGULATIONS.

As it is the aim of the Institution to promote good scholarship and Christian character, the following regulations have been adopted, calculated to secure these results:

Students are not allowed to use intoxicating liquors.

The use of tobacco in any form upon the College premises, or in other places, is prohibited.

All profanity, playing at cards or billiards, and everything tending to immorality of life, are strictly forbidden.

Cleanliness of rooms and persons is required.

Regular and punctual attendance upon all hours for study and recitation, and upon the established religious exercises of the Institution, is expected; as also entire and cheerful obedience to its regulations, and to the officers of the same.

The government of the Institution is designed to be moral and conciliatory. It will be strict and impartial.

Students, so far as possible, are thrown upon their own behavior, appeal being made to their own sense of justice and propriety, and their principles of honor – and they *are understood, on entering, to pledge themselves to obey all the regulations of the Institution.*

RELIGIOUS.

Students are required to attend the following religious exercises: Church service and Sabbath-school on the Sabbath, daily prayers at their boarding places, and in the morning at the Chapel.

AIMS.

The advantages and privileges of the Institution are offered to all of either sex, without regard to sect, race, color or nationality.

It aims to furnish a thorough education, under the best methods of instruction, in a sufficiently wide range of studies, securing a sub-

stantial preparation for professional duties, teaching, or general business.

It aims to secure the best development of social character, by bringing students, of both sexes, from various localities, under the same general discipline, occupying separate buildings, yet constituting one family; associating in school and religious exercises, and in the dining-hall, under the constant oversight of the teachers.

Above all, it claims to be an institution of *Christian* learning. It stands upon the broadest possible basis, and is in no respect *sectarian*.

It is designed to make the Institution, so far as possible, a *home* for those who attend. Parents and guardians may rest assured that any youth placed under the care of the Instructors will be their special charge, and that the rules of good conduct will be at all times enforced.

WANTS.

Without State aid, and relying entirely upon the gifts of the benevolent, the College has need of many things, and these wants may be summarized as follows:

1. Literature. Sunday-school books and papers are in great demand by students who are engaged in teaching. They plant their Sabbath-schools almost as regularly as their day schools, and papers and books, although not new, are a material aid in destitute places.

A fine room has been done off in Swayn Hall for the College Library, and standard works on all subjects are desired for its shelves.

2. Student aid is a necessity. The charges for board and room are made as small as possible, yet but few, from their own resources, are able to meet these necessary expenses. Nearly all require some help, and many require a great deal. Often from fifty to seventy dollars are needed to supplement a student's resources and keep him in College a year. This aid is extended only to the worthy, and perhaps there is no surer or quicker way of doing good than by thus helping some promising student into a life of usefulness.

While the day may not be far distant when the majority of students will be nearly or quite self-supporting, there will always be some poor in purse, but rich in possible development of mind, whom it would be a crime to turn from our doors. For such the College needs and must have *permanent* funds.

Endowed scholarships are greatly desired, and something has already been done.

During the past year the Belden scholarship of one thousand dollars, the gift of Mr. Wm. Belden of New York, has been secured;

also five thousand dollars from the estate of Mr. R. R. Graves, the donor of the Theological Building and adjacent grounds. This is the beginning, but much more is needed.

3. Apparatus and cabinet. The College is in great need of a mineralogical cabinet, physical and chemical apparatus, and illustrations for teaching physiology. Such appliances as could be purchased for a few hundred dollars would be of real service in the work of instruction. What older institutions might call useless would be valuable here.

4. Library. A few class-mates and college friends of the President have, during the year, begun an endowment known as the "Yale Library Fund of Talladega College." As yet the fund is small and its increase is earnestly desired. For present use the Library requires the income of at least five thousand dollars.

5. Large sums both for present use and for endowments are needed in the Industrial Department. No instruction among the Freedmen is complete that does not sedulously care for industry. Skilled labor is rare, and the hand as well as the head requires careful training. After moral and hygienic instruction, nothing is more essential than lessons in labor and economy. Bread and butter studies here ought to hold a high rank, and the results from what has already been done—as in painting, printing, farming, and housework—only indicates what might be done with greater facilities. The College-farm, which embraces 160 acres, needs implements and fences. A carpenter's shop should be furnished, and a new building is needed at once for a laundry, with its appliances, a sewing-room and model kitchen.

But industrial training has always been found expensive and scholarships in aid of this undertaking are earnestly requested. The labor performed by students, though advantageous to them, is not largely remunerative to the College. The farm, kitchen and sewing-room are for the pupil, rather than the pupil for them. Besides money for the buildings and utensils, an endowment of at least twenty-five thousand dollars is needed to meet the present necessity of industrial pupils.

6. A general endowment for salaries, especially in the College and Theological Departments, has now become a necessity. A college can not always live from hand to mouth, nor meet the requirements of each year by yearly solicitation. A stable institution must have a constant income. In this also a beginning has been made. Fifteen thousand dollars has recently been given towards an endowment for the President's salary, and the school, now becoming in fact, as in

name, a College, with only small classes at first in the higher studies, ought to have this sum greatly increased. This object is commended for the bequests of those who can not give to it while living. The legal name of the corporation is "Talladega College, Talladega, Alabama."

LOCATION.

This School, founded and sustained by the American Missionary Association, was chartered as a College in 1869. It is at Talladega, among the Appalachian foot-hills, and has rare advantages in climate and scenery. On the East Tennessee, Virginia and Georgia Railroad, it has easy access to all parts of the State, yet is far enough removed from the great cotton belt to escape the malaria and more intense heat of that region. The buildings, consisting of three large and well furnished brick halls, besides four residences for instructors, stand on high ground, shaded with trees, about half a mile from the village and surrounded with distant ranges of hills. For beauty of location, and healthfulness of climate, Talladega College can not be surpassed by any institution in the South.

MISCELLANEOUS.

Each pupil should bring a Bible. It is needed for private reading, for the Sunday-school, and for the weekly Bible lesson.

All should be provided with *warm* clothing. Young ladies should bring water-proof, rubbers, and umbrella.

Economy and good taste demand plain and simple clothing.

Parents are urged to co-operate with teachers in seeing that none other is worn.

Letters should be addressed to Talladega College, Talladega, Ala.

A long experience has proved that much evil comes from pupils receiving food from home. It is best they should not receive it. *Friends, therefore, will please not send it.*

Pupils who do not board at their homes, are not allowed to board out of the Institution, except by special permission obtained before coming.

Boarders are expected to furnish their own towels.

Letters making inquiry upon any subject connected with the College will be very gladly received and answered. They should be addressed to

GEO. N. ELLIS, *Secretary*,
Talladega College,
Talladega, Alabama.
