HISTORICAL SKETCH.

The American Missionary Association began a school in Talladega twenty-three years ago. In 1867 a large and stately building erected for college use in 1852-3 was purchased, with several acres of land, and a primary school opened that Autumn with more than 100 pupils in attendance. The building is called Swayne Hall, in honor of General Wager Swayne of the Freedmen's Bureau by whom the purchase was made. In 1868 a church was organized, and in 1869 the corner stone of a girls' hall accommodating also the boarding department, was laid, and the building named after Rev. L. Foster, of Blue Island, Ill., a principal donor. In 1873 by the gift of Mr. R. R. Graves, of Morristown, N. J., a two-story wooden house and six acres of valuable land were secured for the Theological Department. Winsted Farm of 160 acres, less than a mile from the college buildings, was bought in 1877, mainly by Connecticut donors. The Newton Farm of 60 acres was added in 1887. Stone Hall, for the use of young men, built in 1881, is the gift of Mrs. Valeria G. Stone, of Malden, Mass. The same year, the other brick Halls, Swayne and Foster, were thoroughly repaired, a new house was built for the President, and the following year two other houses—one the gift of Mr. Seth Wadhams, of Chicago—were secured, and are occupied by instructors. In 1883, by the contribution of Mr. J. H. Cassedy, of Thiels, N. Y., a two-story school building was erected for Primary and Intermediate pupils, which was enlarged by a second contribution of Mr. Cassedy in 1887. In 1884, by the aid of the "John F. Slater Fund," a shop was built which was enlarged two years ago. Last year a laundry was added, so that now, besides two school buildings, a hall for young women, another for young men, and four dwellings for teachers, the College has in lands, barns and shops, valuable facilities for teaching the industries. The property of the College exclusive of endowments, is valued at \$113,000.

The College is Christian and evangelical, though not sectarian. It is not a "Reform School," and none but the worthy are tolerated. It aims at thoroughness, and seeks to cultivate the hand, the head, and the heart. The following courses of study are now established :

COURSES OF STUDY.

From necessity the work of the College began with the fundamental branches, and while the higher studies have been added, the preliminary instruction has never been given more thoroughly than now. In the Cassedy School superior advantages are afforded for Primary and Intermediate instruction. In this building is also the Model School, and is under competent and experienced teachers. Grammar pupils have room in Swayne Hall. The preliminary course of eight years is as follows:

PRIMARY COURSE.

FIRST GRADE.

READING—Reading Charts, First Reader.

NUMBERS—Count, Read and Write Numbers to 100. Add, Subtract, Multiply, and Divide with 1's, 2's, and 3's. Use of signs.

NORMAL COURSE.

For admission to this Course a thorough examination must be passed in all the studies of the Seventh and Eighth Grades.

Students graduating from this Course will be required to practice, under criticism, in the Model School during the Junior or Senior year. Graduates receive Diplomas.

FIRST YEAR—(NINTH YEAR OF THE COURSE.)

MATHEMATICS—Elementary Algebra. (Brown).
 LANGUAGE—Composition and Rhetoric. (Hill).

NATURAL SCIENCE—Commercial Geography, one term; Physical Geography (Houston) two terms.
 MORALS AND MANNERS—Good Morals and Gentle Manners. (Gow).
 VOCAL MUSIC.

SECOND YEAR—(TENTH OF THE COURSE).

MATHEMATICS—Higher Arithmetic (Robinson). Book-keeping.
 NATURAL SCIENCE—Physiology, (Hutchinson). Botany, (Wood) one term.
 LITERATURE—Seven British Classics, or equivalent.
 DIDACTICS—School Economy (Wickersham) and Primary Methods.
 LATIN—Optional.
 VOCAL MUSIC.

JUNIOR CLASS—(ELEVENTH YEAR).

MATHEMATICS—Plane Geometry, (Wentworth) one year.
 NATURAL SCIENCE—Physics, (Houston) two terms.
 HISTORY—General History, (Barnes) two terms. Scripture History (New Testament), (Smith) one term. English Literature (Trimble) one term.
 PRACTICAL TEACHING—Under Criticism.

SECOND CLASS—(TWELFTH YEAR).

NATURAL SCIENCE—Geology, (Dana) two terms. Astronomy (Sharpless and Phillips) one term.
 MENTAL AND MORAL SCIENCE.
 HISTORY—United States History, (Scudder). Civil Government (Young).
 PEDAGOGICS—Science of Education. Practical Teaching.
 REVIEWS—Of Common Branches.

COLLEGE PREPARATORY COURSE.

The requirements for admission to this course are the same as the Normal Course.

FIRST YEAR.

MATHEMATICS—Elementary Algebra, (Brown).
 LANGUAGE—Composition and Rhetoric, (Hill).

FOURTH YEAR.

HISTORY—General History, (Barnes) two terms. Astronomy, (Sharpless & Philips, one term.

GREEK—First Lessons, (White). Grammar, (Hadley-Allen.)

LATIN—Cicero's Orations and Virgil.

COLLEGE COURSE.

For some time certain College studies have been blended with those of the Normal and Theological departments; but a complete College course has long been in contemplation, and a beginning in Freshman Latin, Greek and Higher Mathematics was made last year. The design of this course is to give rigorous instruction for four years in that range of liberal studies which is best suited to the necessities of the times and place. Less will be required in the Classics and Mathematics than is customary in American Colleges, and more attention given to branches that here are especially important.

The succession of studies, and the time allotted to each, cannot now be stated, but general principles have been determined. The Languages will be taught with special reference to results in English, and New Testament exegesis. The Course in Pure Mathematics will be shortened in the interest of Physics, Botany, Geology and Astronomy. Chemistry will be made tributary to the affairs of common life, while Physiology and Hygiene will receive special attention. Rhetoric with Elocution, Logic, Political Economy, Business Law, The Science of Government, History, English Literature, Mental and Moral Philosophy, and The Evidences of Christianity will be emphasized, and the study of the Bible continued throughout the entire course.

As in all other Departments of study, the aim is thorough work, and those who complete this course will receive the customary College degree.

THEOLOGICAL COURSE.

Candidates for admission to this course must furnish satisfactory evidence of good moral character and of such scholarship as will enable them successfully to pursue the prescribed studies.

JUNIOR YEAR.

GREEK—Anabasis and Cyropædia, one year.

MENTAL PHILOSOPHY—Two terms; Rhetoric, one term.

THEOLOGY—Biblical Geography and Archæology, one term.

OLD TESTAMENT—Its Authenticity, Canonicity, History, Chronology, Ancient Covenants, Doctrines and Institutions, two terms.

FIRST MIDDLE YEAR.

GREEK—New Testament and Exegesis, one year.

THEOLOGY—Messianic Prophecies with Hermeneutics, half a year.

Introduction to the study of the New Testament, half a year.

SYSTEMATIC THEOLOGY—Existence and Perfections of God. Inspiration and Divine Authority of the Bible, Trinity, Decrees, Providence, Will, Nature of Holiness and Sin, Apostasy, Depravity and Atonement, one year.

SECOND MIDDLE YEAR.

LOGIC—One term; Civil Government, one term; English Literature, one term.

SYSTEMATIC THEOLOGY continued—Regeneration, Repentance, Justification by Faith, Perseverance of the Saints, Christian Perfection, Prayer, Eschatology, Christian Church, Positive Institutions, one year.

NEW TESTAMENT—History and Harmony of the Gospels, half a year; Epistle, with Exegesis, half a year.

SENIOR YEAR.

MORAL PHILOSOPHY.—Half a year.

POLITICAL ECONOMY—Half a year.

CHURCH HISTORY—The Christian Church. Ancient, Mediæval and Modern; one year.

HOMILETICS—One year.

NOTES—Sermonizing and Pastoral Theology, with Voice Culture, throughout the entire Course.

Graduates from this Course receive the degree of "Bachelor of Divinity."

With a view to more advanced study in Biblical Theology and Exegesis, an additional instructor in this department has been appointed, who will enter upon his duties at the opening of the fall term, 1890.

While it is desirable that students of this department pursue its entire Course of Study, nevertheless, at the discretion of the Faculty, a modified course may be pursued, entitling the student to a certificate, but not to a degree.

Tuition and the use of the Library are free.

Most of the students in this department perform mission work in the surrounding country, for which they receive a small compensation, thus enabling them to continue their studies without becoming involved in debt.

The Macedonian Missionary Society, organized in 1887, meets twice a month for literary and religious purposes, and does much valuable work in the adjacent regions.

INDUSTRIAL DEPARTMENTS.

Manual labor has been a feature in the College from the beginning, and with the growth of the College new facilities for industrial training have been added. Instruction is now given both to young men and women in varied kinds of handicraft. The object is two-fold:—

First—To give practical instruction in the best methods of doing work.

Second—To enable worthy students to pay in labor a part of their expenses, thus developing in them a spirit of self-reliance.

While the College will not *make* work merely for the purpose of giving employment to students, it will furnish all the labor it can consistently. Early application will be necessary to secure aid. *In no case should any one come, hoping to receive such aid, unless such person has applied for the same and has received a favorable answer.* Attention to this statement may save time, trouble, and disappointment. Applicants should state their necessities and *the amount they can promptly pay*; also the degree of advancement in their studies. In no case will industrial students be allowed to run behind in their accounts.

Faithfulness, promptness and efficiency in the performance of labor will be exacted from each one.

AGRICULTURAL DEPARTMENT.—The College farms, garden and orchard—about 270 acres in all—are under the supervision of an Agricultural College graduate, and give an ex-

cellent opportunity for practical instruction in this industry. Young men without money, but desirous of obtaining an education, can usually find employment on the farm until they have earned enough to enable them to go to school a part or all of the year. Several have begun their course here by a few months of farm work. Such have all the privileges of the family, and study in the night school. In this way worthy and industrious persons can secure an education.

MECHANICAL DEPARTMENT.—The Slater Shop under an efficient Superintendent gives students an opportunity to become acquainted with carpentry, cabinet-making, painting, and glazing, and to some extent, with blacksmithing. In this department students in the Normal, Grammar, and Intermediate grades receive systematic instruction at regular hours. The results already attained are highly satisfactory, and it is proposed to increase the facilities for industrial education. In this building is the printing-office.

A shoe shop in which repairing is done is located in the basement of Stone Hall.

GIRLS' INDUSTRIAL SCHOOL.—Practical lessons are given in housekeeping, kitchen, dining-room, and laundry work; and sewing is made a regular and required part of the course of instruction. For this department a competent teacher is provided and an enlargement in this line of work is contemplated. A laundry was erected last summer.

GENERAL INFORMATION.

MEMBERSHIP.

For membership in the College, applicants must have good moral character, and upon their arrival must present satisfactory testimonials of such character.

Students from other schools must present certificates of honorable dismissal.

Application should be made at least one month before the beginning of the school year. No one unable to pay in full, and hoping to secure aid, or to pay in part by labor, should come without previous correspondence and express permission. All should be present at the opening of the school, that they may be immediately classified, and thus lose no time. Students in regular classes lose their membership when absent one month; while *absence without leave* may forfeit the pupil's right to membership in the Institution.

Those who have not a fixed purpose to improve their minds, and an earnest desire to fit themselves for usefulness, should not seek admission, as the presence of such is not tolerated.

TEACHING.

By far the best means of support, as well as of doing good, is found in *teaching*. The demand for teachers properly qualified for this work is usually in excess of the supply; and nearly all of those who are sufficiently advanced in scholarship can aid themselves by teaching.

The Department of Methods and Practice is presided over by a teacher of experience and ability. The members of the Senior class have charge of classes from the Cassidy school and teach daily under the supervision of their critic. It is believed that Talladega affords facilities for the training of teachers, second to none in the South.

County Superintendents of schools, and others desirous of securing teachers from this Institution, will favor their

own interests by so arranging the sessions of the public schools as to have them occur during its summer vacation.

Students of this institution who by their instructors may be considered qualified for teaching, will be furnished certificates stating their qualifications and standing. As a means of protection from imposition, applicants for schools, claiming to be from Talladega College, should be required to present such certificate.

MUSIC.

Excellent advantages are offered for study and drill in both Instrumental and Vocal Music. Instruction is given upon the Piano and Cabinet Organ, and in the cultivation of the Voice. Chorus Singing and Notation.

LITERARY SOCIETIES.

The students sustain three literary organizations: the Adelpic and Athenæum for young men, and the Vesperian for young ladies. Besides the training of the Societies, Public Rhetorical Exercises are held in the Chapel under the direction of the Faculty.

LIBRARY, APPARATUS, AND READING ROOM.

The Library occupies a fine room in Swayne Hall, and contains about 3,500 volumes. It is increasing in value and a small sum has been secured for its support. It is accessible to all without cost. The College is in possession of a small philosophical apparatus and a museum. Several hundred valuable specimens, the gift of generous friends, have been received recently, including a choice collection of New York minerals, from Dr. Henry B. Nason of the Rensselaer Polytechnic Institute.

A Reading Room open to students is found in both Stone and Foster Halls.

PRIZES.

Prizes in the form of Free Tuition are given to students in the Grammar and Normal Departments for excellence in reading and declamation. Two prizes of Ten and Five dollars each, established by Rev. J. M. Whiton, Ph. D., of New York, may be awarded annually for essays on some theme in History, Philosophy or Literature. The prizes were made

available in 1888, and this year the first prize was awarded to Lillie C. DeJarnette and the second prize to Augustus A. Battle.

LECTURES.

Monthly during the school year, alternating with Society exercises and social gatherings, lectures on literary and practical subjects are delivered by members of the Faculty, and others from abroad.

ALUMNI MEETING.

By recommendation of a committee appointed the previous year, our Alumni Association was organized at the College Commencement in 1882. This Association has an annual meeting. It seeks to perpetuate acquaintance and strengthen fellowship by reunions and correspondence, and it also nominates some of its number to share under the direction of the Faculty, in the exercises of Commencement.

EXPENSES.

Room rent in the boarding hall is \$1 per month. Each room is intended for two students, and is plainly but neatly furnished. Students will provide their own towels, fuel, lights, soap, etc. Oil and fuel may be purchased from the College as required.

The price of board will vary with the cost of provisions and the expense of preparing the same for the table. The dining room is in Foster Hall, and the bill of fare is arranged by a committee appointed by the students. From \$3.50 to \$4 per month will cover the cost of table board.

Tuition in Primary department, per month,	\$.50
Tuition in Intermediate department, per month,75
Tuition in other departments, per month,		1.00
Instruction in Instrumental Music, with use of instrument, one hour daily, per month,		2.00
Same per term, payable in advance,		5.00

The monthly expenses for a single student are estimated as follows:

Rent of furnished room,	\$1.00	\$1.00
Board,	3.50 to	4.00
Tuition,50 to	1.00
Fuel,20 to	.50
Lights,10 to	.25
Washing,75 to	1.00

Total,

6.05 to 7.57

All boarders are required to work for the Institution at least one hour per day. This requirement makes the above low charges possible.

Opportunity will be given girls to do their own washing and ironing.

All needed text-books can be bought at cost at the College, and students should come prepared to get them.

Students will be held responsible for damage done by them to College property.

All payments are to be made promptly as required. Students who fall behind in their accounts a half month are liable to suspension from recitations until they pay, or make other satisfactory arrangements.

All old accounts must be settled before entering school for another year.

Upon arrival, all students are expected to deposit their money with the Treasurer.

Remittances in payment of bills should be made by money-orders, drafts, in registered letters, or by express. Make money-orders and drafts payable to the Treasurer, and address all moneys to him.* Receipts will be promptly returned.

REGULATIONS.

As it is the aim of the Institution to promote good scholarship and Christian character, the following regulations have been adopted, calculated to secure these results:

Students are not allowed to use intoxicating liquors, or tobacco in any form.

All profanity, playing cards or billiards, and everything of immoral tendency, are strictly forbidden.

Keeping or using fire arms on the premises are forbidden.

Cleanliness of rooms and person, good order and fidelity to duty are required.

Only plain and simple clothing is to be worn. Expensive dress will not be allowed at Commencement, and parents are requested not to furnish it.

All students from abroad are required to board in the Institution unless special permission is given to board elsewhere.

Regular and punctual attendance upon all hours of study and recitation, and upon the established religious exercises of the Institution, is required; as also entire and cheerful compliance with its regulations, and ready and willing obedience to all its officers.

Students, as far as possible, are taught self control, appeal being made to their own sense of justice, propriety, and honor, and they *are understood, on entering, to pledge themselves to obey all the regulations of the Institution.*

PUBLIC WORSHIP.

Students are required to attend punctually the following religious exercises: Church service and Sabbath School on the Sabbath, daily prayers at their boarding places, and in the morning at the Chapel. There are other services at which attendance is optional, although it is earnestly desired, and is very general. These are the services of the Temperance and Missionary Societies, Mission Sabbath Schools, Class and General Prayer meetings, and the Young People's Society of Christian Endeavor.

AIMS.

The advantages and privileges of the Institution are offered to all of either sex, without regard to sect, race, color, or nationality.

It aims to furnish a thorough education, under the best methods of instruction, in a range of studies sufficiently wide to secure a substantial preparation for professional duties, teaching, or general business.

It aims to secure the best development of social character, by bringing students of both sexes, from various localities, under the same general discipline, occupying separate buildings, yet constituting one family; associating in school and religious exercises, and under the constant oversight of the teachers.

Above all, it claims to be an institution of *Christian* learning. It stands upon the broadest possible basis, and is in no respect *sectarian*.

It is designed to make the Institution, as far as possible, a *home* for those who attend. Parents and guardians may rest assured that any youth placed under the care of the In-

structors will be their special charge, and that at all times the rules of good conduct will be enforced.

WANTS.

Without State aid, and relying entirely upon the gifts of the benevolent, the College has need of many things. These wants may be summarized as follows:

1. Literature. Sunday-school books and papers are in great demand by students who are engaged in teaching. Such students plant their Sabbath-schools almost as regularly as their day schools, and papers and books, although not new, are a material aid in destitute places.

2. Student aid is a necessity. The charges for board and room are made as small as possible, yet many require some help. This aid is extended only to the worthy, and perhaps there is no surer or quicker way of doing good than by thus helping some promising student into a life of usefulness.

Endowed Scholarships are greatly desired, and already some have been secured. Eight years ago the Belden Scholarship of one thousand dollars was given by Mr. William Belden, of New York; also five thousand dollars from the estate of Mr. R. R. Graves for theological scholarships. Other theological scholarships of one thousand dollars each have been received from Mrs. Nancy M. Stone, and her daughter, Abbie Stone, of Jefferson, Ohio, Rev. John and Lydia Hawes Wood, of Fitchburg, Mass., and Mr. H. B. Lincoln, of Worcester, Mass. The sum of \$709.25, from Mr. Ephraim A. Brown, of N. Bloomfield Ohio, has been invested as a general scholarship.

3. Apparatus and Cabinet. The College is in need of additions to its Mineralogical Cabinet, and Physical, and Astronomical Apparatus. Such appliances as could be purchased for a few hundred dollars would be of real service in the work of instruction.

4. Library. A few class-mates and College friends of the President have begun an endowment known as the "Yale Library Fund of Talladega College." As yet the fund is small and its increase is earnestly desired.

5. Large sums both for present use and for endowments are needed in the Industrial Department. No instruction among the Freedmen is complete that does not sedulously care for industry. Skilled labor is rare, and the hand as well as the head requires careful training. After moral and hygienic instruction, nothing is more essential than lessons in labor and economy. A model kitchen is greatly desired. The College farm needs buildings, implements and fences. The Slater shop, recently enlarged, should be supplied with additional tools, and a small engine.

But industrial training has always been found expensive, and scholarships in aid of this undertaking are earnestly requested. The labor performed by students, though advantageous to them, is not largely remunerative to the College. The farm, shop, kitchen, laundry, and sewing-room are for the pupil, rather than the pupil for them. Besides money for buildings and equipments, an endowment is desirable to meet the necessity of industrial students.

6. A general endowment for salaries, especially in the College and Theological Departments, has become a necessity. A stable institution must have a constant income. In this a beginning has been made. Twenty thousand dollars has been given towards an endowment for the President's salary, but unless this sum is greatly increased, and other endowments are secured, the growing needs of the Institution cannot be met. This object is commended for the bequests of those who cannot give to it while living. The corporate name is "Talladega College, Talladega, Ala."

LOCATION.

This Institution, founded and sustained by the American Missionary Association, is at Talladega. Situated among the Appalachian foot-hills on the E. T., V. & G., L. & N., and T. & C. V. Railroads, it is easily accessible from all parts of the State, and is so far removed from the great cotton belt as to escape the more intense heat and malaria of that region. The buildings, shaded by trees, stand on high ground, about half a mile from the village.

In the vicinity of coal fields, surrounded by hills filled with iron and marble, in the midst of a rapidly increasing

population, with clear air and pure water, Talladega College is not surpassed in advantages of location and beauty of scenery by any institution in the South.

About half the people of Alabama are colored, and by the census of 1880, 80 per cent of them are illiterate. This College, the first institution of Collegiate rank established in the State for the Freedmen, has a constituency of more than 600,000. Its fields, its location, and its possibilities are all that could be desired. Hitherto its work has not been small; its need and opportunities were never greater than now.

MISCELLANEOUS.

Each student should bring a Bible. It is needed for private reading, for Sunday School, and for the weekly Bible lesson.

All should be provided with *warm* clothing. Young ladies should bring water-proof, rubbers, and umbrella.

A long experience has proved that much evil comes from students receiving food from home. It is best they should not receive it. *Friends, therefore, will please not send it.*

Students should be present on the first day of the school year, and continue, if possible, to the end. A delay of a few days only, will hinder a student during the entire session.

Students from a distance should arrange their journeys so as not to arrive on the Sabbath. The College aims to be thoroughly Christian, and reverences the Lord's day.

Letters of inquiry upon any subject connected with the College will be very gladly received and answered. Financial letters should be addressed to

E. C. SILSBY, *Treasurer.*

Letters regarding the Department of Theology to

REV. G. W. ANDREWS, *Instructor in Theology.*

Other letters, to

REV. HENRY S. DEFOREST, *President,*

Talladega College,
